"
Motivated and detail-oriented **Computer Science graduate** with hands-on experience in **software development** and a deep passion for **game development**. Skilled in crafting **full-stack web applications** and building immersive gameplay experiences using **Unreal Engine 5**. Strong problem-solving abilities, collaborative mindset, and a continuous learner eager to contribute to software and game development teams.
"

JOB EXPERIENCE

2023 - Present

ST. ALOYSIUS COLLEGE WEBSITE TEAM
Front-End Developer

- Collaborated with a development team to design and implement the front end of the official college website
- Developed clean, responsive web pages using HTML, CSS, and JavaScript
- Ensured cross-browser and mobile compatibility for an optimal user experience
- Participated in agile-style team meetings and contributed ideas for UI/UX enhancements
- Captured and edited professional images of campus infrastructure and faculty for the website

Projects:
Zombie FPS Shooter Game | Unreal Engine, C++

- Developed a first-person zombie survival shooter featuring wave-based enemy spawns, health and ammo systems, and a countdown-based survival timer
- Implemented AI behavior for zombies, player interactions, and combat mechanics
- Optimized game performance and ensured smooth player experience

Crypt Raider | Unreal Engine, C++

- Designed a first-person puzzle game with physics-based mechanics and cryptic level design
- Built interactive puzzle systems, dynamic lighting, and seamless progression
- Focused on enhancing immersion through smart level layouts and environmental storytelling
